

How can we support local and regional authorities in implementing energy-saving measures to achieve the ambitious goals of the EU Green Deal?

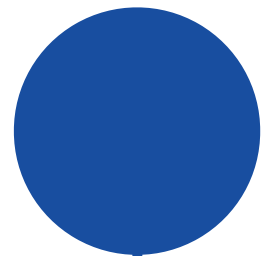

European Energy Award along the Danube

a project example how to support local and regional
authorities to implement energy saving measures

Simone Burster
Head of Project Management
Danube Office Ulm/ Neu-Ulm

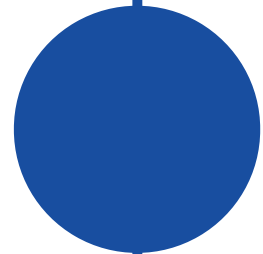

Objective

What are we aiming at with the project

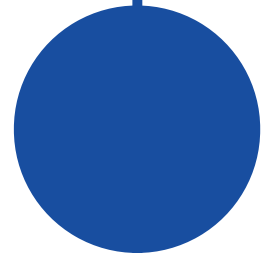

Raise Awareness

and promoting the eea in the Danube Region

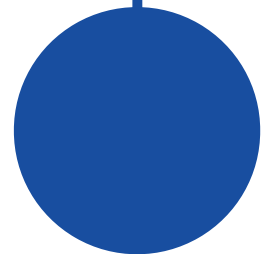

Capacity Building

with regards to the eea & the implementation of local climate protection measures

Identify Pilot Regions

and prepare them for the eea implementation

Contribute

to sustainability & environmental protection in the Danube Region

Content

What the project is about

European Energy Award (eea)

Quality management & certification tool for municipalities & cities

Interdepartmental & interdisciplinary team

Visibility: public relations towards citizens

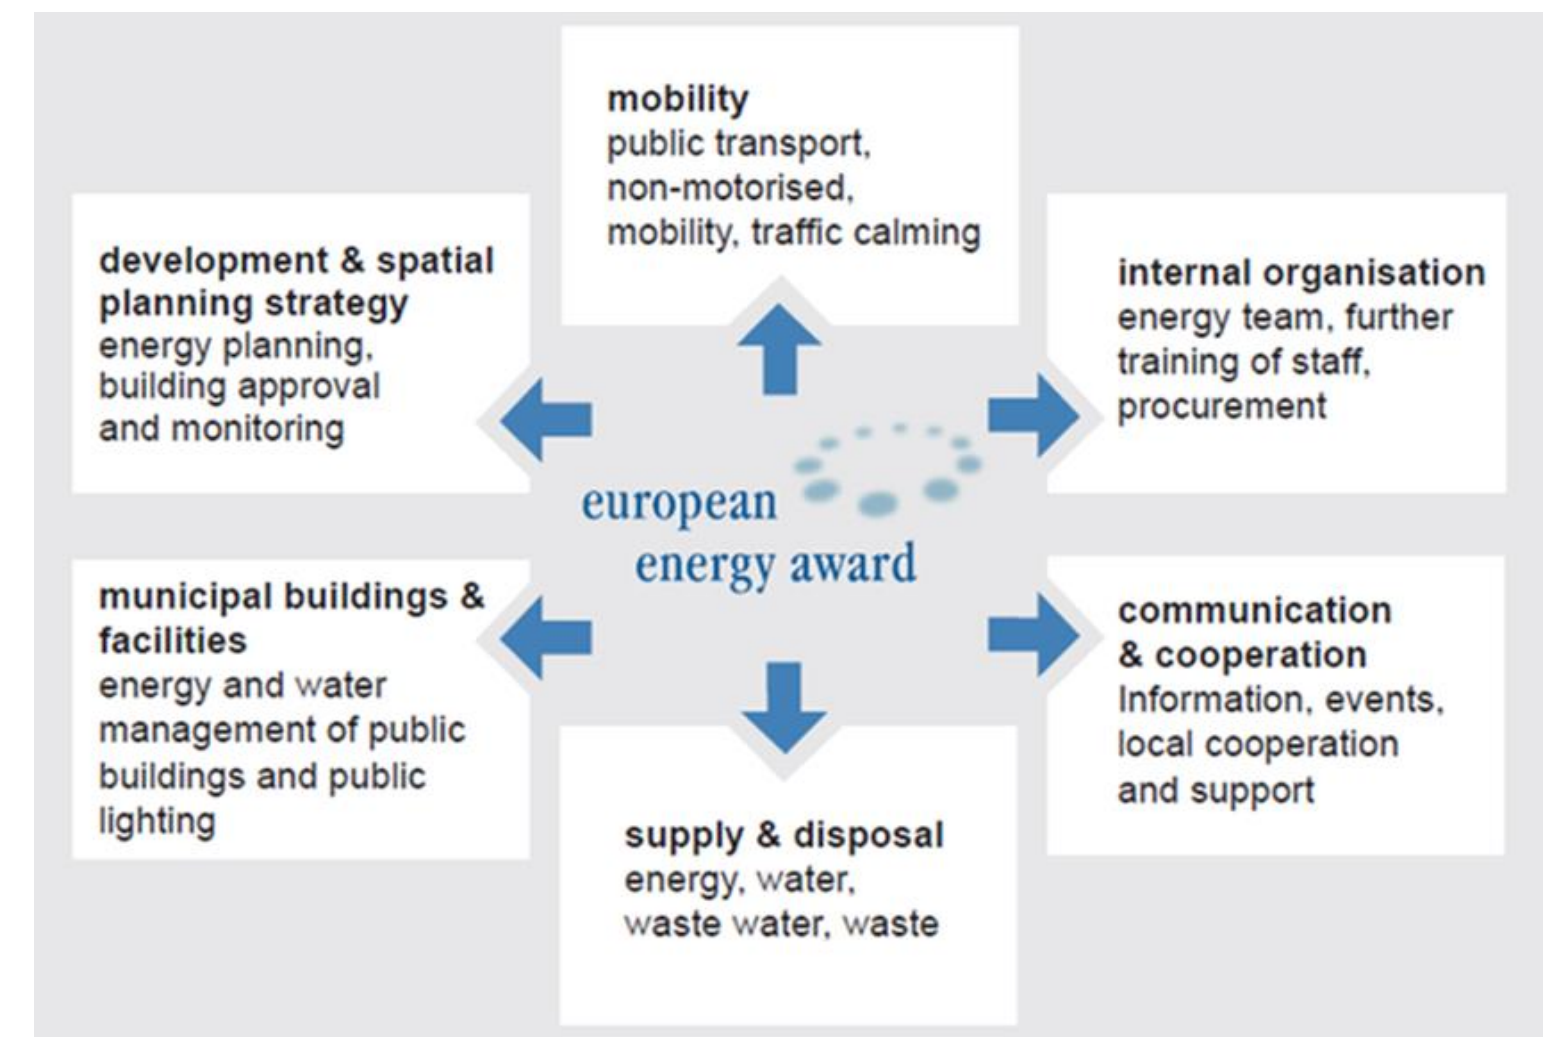

Comparability with other municipalities/cities

Leading to a structured approach which also reaches visibility for the public

Six relevant areas of local action

Impact

What we realised during the project duration

FACTSHEETS

Development of factsheets for the countries of the Danube Region to give an overview on the status quo and provide relevant information

PILOT REGIONS

3 Pilot partners: Hungary, Croatia and Bosnia and Herzegovina

After the workshops interest of:

- 1 County in Croatia

- 4 cities/ municipalities in Hungary

- 8 cities/ municipalities in Bosnia and Herzegovina

NEW PROJECT PROPOSAL

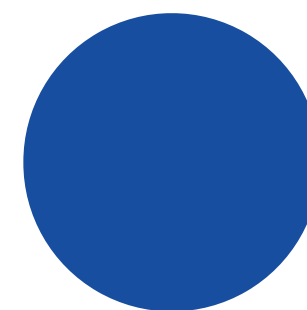

All 3 pilot partners are part of a new project consortium with the aim of implementing the eea
